DETAILED ACTION

Claim Objections

1. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim(s) 1, major points as follows:

- Typo, line(s) 4;
- line(s) 2, "at said mobile feeder" and line(s) 7, "to said mobile feeder" are recursive references. That is to say the mobile feeder is defined in terms of itself. The examiner suggests defining some attachment point where the frame & band are separable at, and movable relative to said point;
- "partially is integrated" is unclear;
- in line(s) 9, "releasably" should be changed to -- adjustably --.

Conclusion

4. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 3651

5. Claims 2-4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
